Biography John Moran is a livestock specialist with over 40 years' experience in Australia's dairy and beef industries, working as a researcher, adviser and trainer. As well as working in northern and southern Australia, over the last ten years he has undertaken 100 training programs throughout south and east Asia, with both farmers and advisers, mainly in tropical dairy production. John has written over 100 research publications and conference papers as well as numerous books and technical articles that are now widely read throughout Australia's and Asia's dairy industries. He has also written four books specifically on tropical dairy farming and has facilitated strategic planning workshops for regional dairy development programs in Indonesia and Malaysia.
